VOLUME II OF THE ANNUAL REPORT OF THE
AMERICAN HISTORICAL ASSOCIATION
= FOR THE YEAR 1936

PREFACE

For explanations concerning the plan of this bibliography the reader may be referred to the preface of one of its early predecessors. Beginning with the present volume, however, the scope of this annual bibliography has been changed in that the content has been limited to writings on the history of the United States and its outlying possessions, in contrast to previous volumes which have included material on the history of Canada and the Latin American countries. But it is to be noted that, although writings dealing specifically and entirely with the history of the countries to the south of the United States have been omitted, all items treating of the colonial history of those sections of the United States which were formerly part of the overseas empire of Spain (*i. e.* Florida, Louisiana, California, and the Southwest) have been included, as has also all material dealing with the history of diplomatic relations of the Latin American countries, and of Canada, with the United States.

The change in policy described above has been made in the interests of economy, both of time required for compilation, and of printing costs.

This volume has been prepared at the Library of Congress. For the facilities which have been granted there, thanks are gratefully rendered to Dr. Herbert Putnam, Librarian Emeritus; to the present Librarian, Mr. Archibald MacLeish; and to other members of the staff of the Library.

The preparation of the manuscript, as distinguished from the printing and publication, has been sustained by a group of subscribers consisting of various historical societies and individuals, the present list being the following: The American Historical Association, American Catholic Historical Association, American Philosophical Society, Bowdoin College, Brown University, Colonial Society of Massachusetts, Illinois State Historical Society, Indiana Historical Bureau, State Historical Society of Iowa, Missouri Historical Society, Newberry Library, New York Historical Society, State Historical Society of Wisconsin, University of Pennsylvania, Prof. Julian P. Bretz, Mr. Clarence S. Brigham, Dr. Max Farrand, Mr. Albert Matthews.

A cumulative index covering the volumes for the years 1906-1930, inclusive, is now in process of compilation by Mr. David M. Matteson, to be published under the auspices of the American Historical Association.

Chapter IV delas with "Revolted America".

Kerr, Wilfred Brenton. Bermuda and the American revolution: 1760-1783. Princeton: Princeton univ. press. xii, 142 p. illus. [739]

The writer's thesis is that the American revolution was not confined to the thirteen mainland colonies. The measures of reorganization undertaken by the British Government in 1760-1765 affected all the colonies and the non-revolutionary colonies were deeply involved in the conflict of 1775-1783. He presents here the results of a study of conditions in Bermuda, which colony by reason of its carrying trade was linked most closely of all to the colonies in revolt.
